Pressure control click at : 250 gr.

Charging time (empty to full) : 16 hours

Operating time (full to empty) : \pm 25 minutes

Battery type : NiCd

SERVICE INFORMATION

Hand unit tooth brush (1)

Never open the hand unit of the tooth brush, because the unit is not water tight anymore.

In case of a defect, then complete unit must be replaced.

Charging unit (2)

In case of a defective charging unit or cordset, the complete charging unit must be replaced.

NOTES

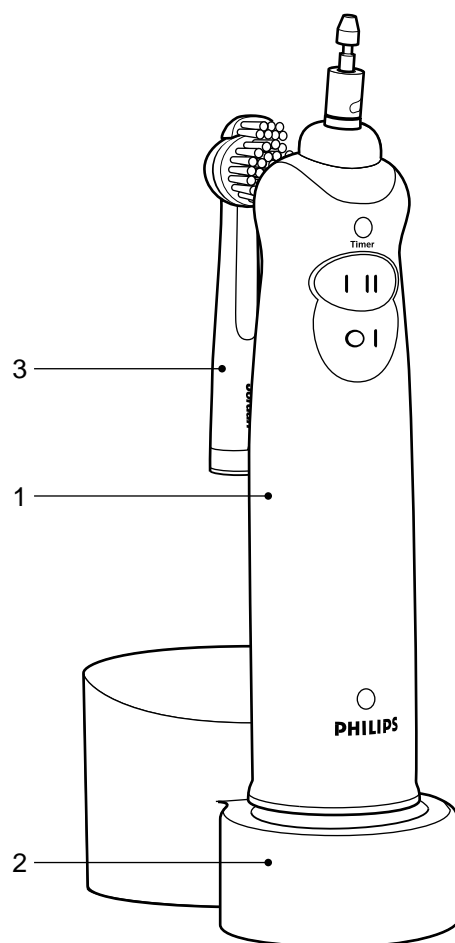

For standardisation reasons the hand unit of the HX 2540 has to be replaced by the hand unit of the HX 2550. The hand unit of the HX 2550 also has a charging light, that is green and blinks, when the battery is being charged and that burns continuously when the battery has been fully charged.

When discarding the appliance, remove the built-in rechargeable battery.

The battery should be completely empty of charge.

Product meets the requirements regarding interference suppression on radio and TV.
