Description : Dental centre
Voltage : 220 - 240 V
: 200 V
: 110 - 127 V

Power consumption : 20 Watts
Voltage motor : 24 V

SERVICE INFORMATION

Hand unit tooth brush (I)

Never open the hand unit of the tooth brush, because the unit is not water tight anymore.

NOTES

For standardisation reasons, the hand unit of the HX 2740 has to be replaced by the hand unit of the HX 2550.

The hand unit of the HX 2550 also has a charging light, that is green and blinks when the battery is being charged and that burns continuously when the battery has been fully charged.

When discarding the hand unit of the tooth brush, remove the built-in rechargeable battery.
The battery should be completely empty of charge.

Product meets the requirements regarding interference suppression on radio and T.V.
